Visitors of all ages will delight in multiple stages of entertainment, food, hand-crafted holiday gifts, a children's winter wonderland, horse-drawn carriage rides, shopping and, of course, visits with Jolly Ol' St. Nick. Many thanks to the group of 40 volunteers from the Boy Scouts & LDS Church who painted house numbers on the curbs in the Acapulco, Maui, Port-au-Prince & Country Gables neighborhoods. The group worked a total of 120 hours and Jake Janson will earn an Eagle Scout Badge for coordinating this project. Congratulations Jake!

Free GED Classes. Do not let the lack of a high school diploma keep you from your dreams of the future. Once you obtain your General Equivalency Diploma (GED), doors to higher education and job opportunities will open.

67th Ave Improvements Project. As part of the 67th Avenue Improvements Project, crews have completed storm drain work north and south of Thunderbird Road, but were unable to tunnel under Thunderbird Road in July, as originally scheduled, due to an active irrigation line located above where the storm drain pipe will be installed. Therefore, it was necessary to postpone work until SRP could schedule a dry-up of the irrigation line, which began this week and will take approximately three weeks. To complete this "tunneling" under Thunderbird for the storm drain pipe installation, crews began the week of November 3rd to prepare, and began installing storm drain pipe this week. This operation should be complete in January 2009. While tunneling under the roadway is less disruptive to traffic than trenching across a major roadway, traffic restrictions will be required north and south of Thunderbird Road to be able to install the 30" pipe.

Additional improvements at this intersection include bus bays, right turn lanes, sidewalk, landscaping, electrical improvements, and median islands on 67th Ave north and south of Thunderbird Rd. Thank you for your patience during this construction. For project questions or comments, please contact our hotline at 1-877-203-0042.
